**Who we are**

**Reach out**

Hello!

...

Hello!

Thank you for your interest in Skylark services.

...

Would you mind spending a few minutes with us  
to help us understand your requirements ?

I am Ready! Lets do it.

Sorry, I am little busy now.

Hello!

Thank you for your interest in Skylark services.

...

Would you mind spending a few minutes with us  
to help us understand your requirements ?

**I am Ready! Lets do it.**

**Great!** Let's get started now

...

Would you tell us which sector/industry your  
business belongs to?

Would you mind spending a few minutes with us to help us understand your requirements ?

I am Ready! Lets do it.

Great! Let's get started now

...

Would you tell us which sector/industry your business belongs to?

Mining

Roadways & Highways

Railways

Land Development

Oil & Gas Pipeline

Powerlines

Hmm... my business doesn't fit into any of these

I am Ready! Lets do it.

Great! Let's get started now

...

Would you tell us which sector/industry your business belongs to?

Land Development

Are you looking for a land surveying service for your business?

Yes. You got it right!

Hmm... not really

Would you tell us which sector/industry your business belongs to?

**Land Development**

Are you looking for a land surveying service for your business?

**Yes. You got it right!**

You got a little work to do. Can you plot your area on the map. **It's super simple!**

**Here I go now :)**

**Ahem... I'll skip it**

Can you tell us the area (in acres) to be surveyed?

4735 (Acres)

Edit

**We are almost there!** Could you tell us the kinds of output you are expecting from us?

Digital Terrain Model

Digital Surface Model

Contour Map

Orthomosaic Map

Spot Levels

Stockpile Volume Estimation

Land Use/Land Cover

Man Made & Natural Feature Analysis

My expectation on the output is something different

#### What is a Contour Map?

It is a map consisting of all contour lines joining point at the same elevation above mean sea level.

What would be the resolution of maps you desire to have for this project?

For example: 5 cm resolution would mean that each pixel on the map is equal to 5cm on the ground)

3cm

4cm

5cm

6cm

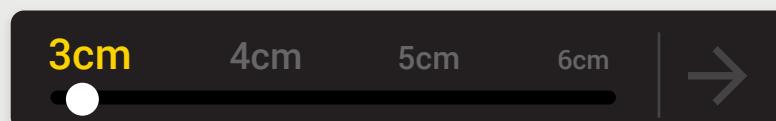

Choose a default resolution or enter a custom resolution

[Yes, I have it](#)

**Great! You made our life easier!** Tell us how many DGPS points you have installed?

[Our Solutions](#)[Success Stories](#)[Who we are](#)[Reach out](#)

DGPS points you have installed?

382

[Edit](#)

**So nice of you!** to share with us a good amount of information.

To take this forward, one of our project manager **Mike Marcula** will get in touch with you shortly.

Would you mind providing us with your contact details so that we can get to next steps quickly?

**Yes, I am happy to give**

**Let me think about it later**
